

## **Personnel -- Certified/Non-Certified**

### **Chronic Communicable Disease**

The Board of Education recognizes that the presence of staff afflicted with a chronic communicable disease may create issues of concern on behalf of parents, students, and staff. To that end, the Board will protect the rights of those afflicted with such a disease and the rights of their associates and insist that just and humane treatment prevail.

Once it has been determined that a staff member has a chronic communicable disease, a hearing will be conducted, the result of which may remove such person from school premises. This will be done in order to prevent endangerment to persons in the care of the Board of Education. Pending a hearing, the Superintendent may place the staff person on administrative leave.

(cf. 4260/5141.22 - Chronic Communicable Disease)
