Re: Request to Appropriate funds to the Capital and Nonrecurring Account

The Administration proposes that 2% of the operating budget be appropriated to the Capital and Nonrecurring Account. The annual limit of appropriation increased in the June 2021 legislative session to align regional school districts with town boards of education.

I am recommending the Amity Finance Committee and Board of Education approve the following appropriation and budget transfer of 2% or **\$1,015,688** into Reserve Fund for Capital and Nonrecurring Expenses from the fiscal year 2020-2021. The state statute does not require designation at the time of appropriation but there are items that the Board may want to designate. Setting aside these funds when available can keep future budget requests lower and avoid borrowing costs for projects.

The Board appropriated the full amount allowed in 2020, \$495,482, from FY 2020 surplus for roof repairs at Amity Regional High School. To date, \$405,995 is paid or encumbered to the project. This directly lowered the next bond proposed in 2024. Approving the full 2% allowed in 2021 can benefit the taxpayer over the next few years. Approximately .6 percent of the current budget can be removed from the capital plan for fiscal year 2022-23 planning and .4 percent for the fiscal year 2023-24. This aligns with long term goals to fund capital projects from the Capital and Nonrecurring Account rather than the general operating budget. If the appropriation is approved, there is no need to bond in 2024 based on current capital plan. Another piece of the long term plan is that the District's debt service schedule drops by a little over \$500,000 in fiscal year 2025. If there are little or no funds to appropriate in the upcoming fiscal years, an appropriation to the Capital and NonRecurring during the budget process will have less impact on taxpayers.

The projects are grouped in categories including recommendations to be within the 2% limit of \$1,015,688. If the Board appropriates by categories the administration can managed the projects in priority order and balance with any funding opportunities.
