August 2018

Dear Middle School Parent/Guardian:

Federal and state statutes require that we notify parents/guardians on an annual basis about the existence and location of our Asbestos Management Plan for the Bethany and Orange campuses of Amity Middle School. Please be advised that this comprehensive plan is available in each school principal's office.

As part of the renovation project in 2007, all asbestos-containing building materials have been properly removed from the permanent building, and no asbestos-containing building materials were used in the renovations.

In addition to the Asbestos Management Plan housed in the School Principal's office, the Director of Facilities maintains a copy of this plan at the District Offices located at 25 Newton Road in Woodbridge.

Very truly yours,

A handwritten signature in black ink, appearing to read "J.A. Connelly", written over a horizontal line.

James A. Connelly  
Interim Superintendent of Schools
